

Healthcare for Children with Autism is Not Created Equal

Evan lives in Arizona.
He gets the treatment he needs.

Sam lives in California.
He's still waiting.

26 states have passed laws to end autism insurance discrimination.

Autism Speaks thanks California Senate Pro Tem Darrell Steinberg and Assemblyman Jim Beall for introducing autism insurance reform bills this year. If we hurry, Governor Brown and the California legislature can make us the 27th state to address this urgent need.

Call Speaker Perez at 916.319.2046 and Chairman Fuentes at 916.319.2039 and tell them it's time for the California legislature to end autism insurance discrimination.
